SUPER MARIO BROS. 3

Story

The Mushroom Kingdom has remained a peaceful place, thanks to the brave deeds of Mario and Luigi. However, the Mushroom Kingdom forms an entrance to the Mushroom World, a place where all is not well. Bowser sent his seven children to make mischief in this normally peaceful land. As their first order of business, they stole the royal magic wands from each country in the Mushroom World and used them to turn the kings into animals. Mario and Luigi must recover the royal magic wands from Bowser's seven kids to return the kings to their true forms. As Mario and Luigi set off on their journey deep into the Mushroom World, Princess Peach and Toad have but one thing to say: "Good-bye, and good luck!"

Fireballs

If your timing is good, you'll be able to hit the floor beneath them just as they land to put them out of action.

Freezys

If you don't knock this guy out quick, he'll freeze the floors and send you sliding away.

Fighter Flies

Fighter Flies can be stunned only when they land on the floor. Good timing is essential to getting rid of these flying pests.

1 Use It Well, and Use It Often

When you are playing Two-Player Vs., a garbage can rests on the bottom level in the game. Use it well, for it can sometimes be the key to victory.

- If you pick up your rival and carry him or her to the garbage can, the lid will open and you can throw that player inside. It will automatically close and keep that opponent out of action for a while.
- If you're in the garbage can, you'll have to wait a few seconds until the lid opens again. When it opens, jump out and rejoin the game.

- Being trapped in the garbage gives your rivals a chance to grab some coins, but you'll receive a special item that might help you turn the tables on them!
- If your opponent is standing on top of the can and you're trapped inside, use the Super Jump to knock him or her off and escape.
- You will receive a random item when you jump or are thrown into the garbage can.

**The garbage can holds four different types of items. One of these, the egg, contains one of three additional items. You never know what you'll get, so don't forget the garbage can when planning your game strategy.*

Koopa Shells

These shells damage anything they hit. You need to throw them or kick them to send them sliding away.

POW Blocks

POW Blocks stun all of the enemies on-screen and shrink any rival players when you toss them onto the ground.

Fish Skeletons

These are useless, and they smell funny. Throw them away.

Eggs

Coins

If you're really lucky, your egg will contain a coin.

Starmen

Starmen make you temporarily invincible.

Hearts

Hearts turn you into Super Mario!
